## **IT Trust Achieves a Microsoft Silver Hosting Competency**

*IT Trust earns distinction through demonstrated technology success and customer commitment.*

**Johannesburg, South Africa — 05/21/2014 — IT Trust**, today announced it has achieved a Silver Hosting competency, demonstrating its ability to meet Microsoft Corp. customers' evolving needs in today's dynamic business environment. To earn a Microsoft silver competency, partners must successfully demonstrate expertise through rigorous exams, culminating in Microsoft certifications. And to ensure the highest quality of services, Microsoft requires customer references for successful implementation and customer satisfaction.

IT Trust is an IT Consulting & Solutions Provider company servicing Johannesburg, Pretoria, Cape Town & Durban. They do support & maintenance for medium to large enterprises as well as their related Networking and Product requirements

**“This Microsoft Silver hosting competency showcases our expertise in today's technology market and demonstrates our knowledge of Microsoft and its products,” said Karl Germishuysen, CEO of IT Trust. “Our plan is to accelerate our customers' success by serving as technology advisors for their business demands.”**

“By achieving a silver competency, organizations have proven their expertise in specific technology areas, placing them among the top 5 percent of Microsoft partners worldwide,” said Phil Sorgen, corporate vice president, Worldwide Partner Group at Microsoft Corp. “When customers look for an IT partner to meet their business challenges, choosing a company that has attained Microsoft competencies is a smart move. These are highly qualified professionals with access to Microsoft technical support and product teams.”

Our customers are looking for the latest technology, the ability to access applications from any device, and to reduce costs while growing their business. We build our cloud services offerings with technologies and software our customers know and trust.

The Microsoft Partner Network helps partners strengthen their capabilities to showcase leadership in the marketplace on the latest technology, to better serve customers and to easily connect with one of the most active, diverse networks in the world.
